

## Numeracy

- \*Weight and capacity
- \*Money addition and subtraction word problems
- \*Place value
- \*3D shape
- \*Counting forwards and backwards from 2 digit numbers

## Science

- \*How can we sort and classify materials?
- \*Carrying out experiments and making sure they are a fair test
- \*Creating charts and pictures to support our investigations

## Literacy

- \*Re-visiting instructional writing
- \*Labelling, lists and captions

### Story Writing

- \*The Papaya that Spoke

## Art and D&T

- \*Designing our own packaging
- \*Creating our own packaging to be 'used' in our local supermarket

# Supermarket

**This topic focuses on teaching children about a range of materials and their properties and investigating what types are used for packaging in shops and supermarkets and about the issues surrounding waste and re-cycling.**

## ICT

### Multimedia

- \*To copy and paste images into our own documents
- \*Designing and creating images for our own packing

### E-safety

- \* Understanding the importance of passwords, who they 'could' be talking to on the Internet and who to tell if they feel uncomfortable on the Internet

## Social Studies

### Recycling

- \*How is our packaging disposed of?
- \*Where is it taken?
- \*What environmental issues are there surrounding waste disposal?
- \*How do other countries dispose of their waste?

## Other subjects taught outside the topic:

*Music: Music Express*

*PE: Athletics & Ball Skills*

*SPANISH: Taught by Mrs Helen*

*RE: Chinese New Year*

*SEAL: Bullying*
