

Why here?

Walking to the stadium for PE lessons, our Year 3-6 children

have noticed a lot of rubbish on the path that they feel

something needs to be done about.

So let's clean it up and help make a difference!

WHAT YOU WILL NEED TO BRING:

• IGA or trash bags

• Water to drink (bring along a re-usable water bottle!)

• A First-aid kit

• **Gloves.** We have GLOVES (Donated by Mark Osmond Dental Clinic)

Whether on the coast or inland—all waterways lead to the ocean. But if we take action and work together, we can improve the ocean's health and make trash free seas a reality. For over three decades, more than 12 million volunteers have collected

over 220 million pounds of trash! Thank you
