

The Jigsaw Puzzle Song copyright 2000 Charlie Ball

Performed by the Seven Hills Charter School Chorus of Worcester, MA.

1) We're all pieces of a jigsaw puzzle, Many different shapes and colours don't you know, But it's very plain to see, What was always meant to be, That we all fit together just so, Yes we all fit together just so.

2) We're all pieces of a jigsaw puzzle, Some of us are corners, while others make the frame, And most of us will fit, somewhere inside of it, But every piece is needed just the same, Yes, every piece is needed just the same.

3) We're all pieces of a jigsaw puzzle, Together we are more, than all our parts combined, Oh, one and one are three, in this world of synergy, For that's how our jigsaw puzzle is designed, That's how our puzzle is designed.

4) We're all pieces of a jigsaw puzzle, Every piece is special, important to the whole, Our puzzle has a heart, it's the interlocking part, It's picture is a window to our soul Yes, It's picture is a window to our soul.

5) We're all pieces of a jigsaw puzzle Many different shapes and colours don't you know, But it's very plain to see, What was always meant to be, That we all fit together just so, Yes, we all fit together just so.

A song written by Charlie Ball for World Smile Day 2000 with the message that we are all different but each of us is a very important part of the whole.
