

# The Smiley Face Song ©1998 charlie ball

## Chorus

Give a little giggle, grin a little grin  
Do your imitation of a smiley face pin  
Open up your heart and let the sun shine in  
Then share it with your neighbours and your next of kin  
Share it with your neighbours and your next of kin

1. Once there were some people who were feeling kind of blue  
So they called up Harvey Ball, he knew exactly what to do  
He drew a smiley face, he made it yellow too  
It was sunny, it was simple and he said, "i'm through" (now)

Chorus

2. Well the people got excited when they saw what he had done  
So they made up smiley buttons and they handed out a ton  
Which went around the world like the world goes round the sun  
For a smile begets another so there's never just one (so)

Chorus

3. Well that's a little story of how smiley came to be  
Back in December of 1963  
Call the Guinness Book of Records tell them "quick come see"  
The happiest face in all of history (and)

Chorus

4. O the moral of the story is to help the world to smile  
you do an act of kindness, you go the extra mile  
and what you do comes back to you in just a little while  
for goodness is contagious and it's never out of style (so)

Chorus

*A four line chorus followed by a five line chorus*
